## Shuttle rates and maps.

**Full Service Shuttles** - we take your party and all equipment to the put in and then meet you at the take out. We load and unload all gear and get you on your way. All you do is show up and we take care of the rest. This is a good option for those renting rafts, boats or kayaks from us. Meet at the fly shop at designated time. Reservations needed. One put in and one take out only. 14 people and 2 rafts maximum.

**Your Vehicle Shuttled** - we pick up your vehicle at the put in and leave it at the take out. This is best for those fishing / floating the river on their own or those renting equipment with room to haul gear.

All rates are based on mileage from the fly shop to your put in and take out, and time needed to unload set up and re-load.
